WHAT IS THE MIAA

The Massachusetts Interscholastic Athletic Association is a private, non-profit association organized by its member schools to govern, coordinate and promote education based programs for high school students. The MIAA is self-regulating with the 375 member schools providing individual leaders to serve within the 35 MIAA governance units. The latest annual participation survey demonstrates that 230,000 team positions were filled by studentathletes in 33 sports.
